

# CH-10S and CH-20S Modulated IR Source

## FEATURES AND ADVANTAGES

- Hybrid assemblies of our CH-series tuning fork choppers with our CS-IR-22-series wirewound filament IR sources
- Much higher frequencies than with competing technologies
- 100% modulation depth at all frequencies
- Long life (>3 years, more if the source is run at <1100K)
- No frictional parts
- Can be made vacuum compatible at additional cost
