

300P and 320P Blade Protectors

The **Model 300P** blade protector is designed for use with the 300H chopper head that comes with the Model 300C/CD optical choppers. The **Model 320P** blade protector is similar to the 300P blade protector (it differs only in mounting details) and is designed for use with the 320H chopper head that comes with the Model 320C/CD optical choppers. The blade protector encases the chopper head, protecting the blade from damage.

Three 33mm apertures are arranged in the blade protector at 3 o'clock, 9 o'clock, and 12 o'clock.

Dimensions: 114mm (W) x 116mm (H) x 16mm (D)

Material: Black anodized aluminum

Please note that the 300P and 320P are incompatible with the 300HF high frequency accessory. (They use the same mounting points.)
