

Broadband Si based UV photodetector with integrated amplifier

# 1/4

### **GENERAL FEATURES**

### Properties of the TOCON\_Si1

- Broadband Si based UV photodetector in TO5 housing with concentrator lens cap
- o... 5 V voltage output
- peak wavelength at 626 nm
- max. radiation (saturation limit) at peak is 18 nW/cm², minimum radiation (resolution limit) is 1,8 pW/cm²
- · Applications: very low UV radiation, flame detection

#### What is a TOCON?

A TOCON is a 5 Volt powered photodetector with integrated amplifier converting visible light radiation into a 0...5V voltage output. The  $V_{out}$  pin of the TOCON can be directly connected to a controller, a voltmeter or any other data analyzing device with voltage input. Highly modern electronic components and a hermetically sealed metal housing with glass window eliminates noise caused by parasitic resistance paths inside the package or EMI. A TOCON is a perfect solution for each industrial light sensing application starting from stray light detection at pW/cm² level up to sun light measurements at W/cm² level. This thirteen orders of magnitude range is covered by ten different TOCONs that differ by their sensitivity. The TOCONs are produced as broadband sensors or with filters for selective measurement.

## **NOMENCLATURE**

| TOCON_ | ABC, A, B, C, blue, GaP or Si  | 1 10   |
|--------|--|--|

#### APPLICATION NOTE FOR TOCONS

The TOCONs need a supply voltage of  $V_{\text{supply}}=2.5...5V_{DC}$  and can be directly connected to a controller or voltmeter. Please note that the theoretic maximum signal output is always a little less (approx. 5%) than the supply voltage. To learn more about perfect use of the TOCONs please refer to the TOCON FAQ list published at www.sglux.com.

**CAUTION!** Wrong wiring leads to destruction of the device.

For easy setup of the device please ask for a TOCON starter kit.

#### Miniature steel housing with M12x1 thread for the TOCON series

- Optional feature for all TOCON detectors
- Robust stainless steel M12x1 thread body, length 32 mm
- Integrated sensor connector (Binder 4-Pin plug) with 2m connector cable
- Easy to mount and to connect

#### **Plastic probes**

- Optional feature for all TOCON detectors
- probes in small plastic housings with a TOCON inside
- Customized housings available
- Easy to mount and to connect
- Integrated sensor connector (Binder 4-Pin plug)
- Cable available
